RELEVANT SUMMARY

Computer Science undergraduate with hands-on experience building full-stack web applications using **React.js**, **Node.js**, **Express.js**, **PostgreSQL**. Skilled in REST APIs, JWT authentication, Prisma ORM, and Docker, with a strong foundation in Data Structures & Algorithms, OOP, and DBMS. Seeking Software Engineer or Full Stack Developer roles.

PROJECTS

Content Broadcasting System | *Node.js, Express.js, PostgreSQL, Prisma, Redis, Docker*
[GitHub](#) | [Live](#)

April 2026

- **Description:** Production-ready backend platform for secure content broadcasting, scheduling, and approval workflow management.
- Engineered a scalable backend platform for secure content scheduling, role-based approval workflows, and real-time broadcasting in educational environments, deployed via Docker on Render.
- Reduced repeated database query load by integrating **Redis caching** and API rate limiting, significantly improving response throughput under concurrent requests.
- Architected a dynamic scheduler service for time-based content delivery using cycle-based algorithms and optimized PostgreSQL queries via Prisma ORM.
- Designed RESTful APIs with Multer file uploads, Zod schema validation, and auto-generated Swagger documentation; enforced security via **JWT authentication** and **RBAC** for Principal and Teacher roles.

Team Task Manager | *React.js, Node.js, Express.js, PostgreSQL, Prisma, Tailwind CSS*
[GitHub](#) | [Live](#)

May 2026

- **Description:** Full-stack collaboration and workflow management platform for teams with secure authentication and task tracking.
- Delivered a production-ready, full-stack team collaboration platform featuring project management, task CRUD, member roles, and real-time workflow tracking, deployed end-to-end.
- Secured authentication pipeline using **JWT with httpOnly cookies**, persistent session management, and role-based access control (ADMIN / MEMBER) enforced at the API layer.
- Crafted a responsive analytics dashboard visualizing task statistics, project activity, overdue tracking, and workflow progress — enhancing team visibility across projects.
- Integrated Axios interceptors, toast notifications, and a fully mobile-responsive UI with **Tailwind CSS**, ensuring consistent cross-device experience.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Vite

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Middleware

Databases & Caching: PostgreSQL, MongoDB, Prisma ORM, Redis

DevOps & Tools: Docker, Git, GitHub, Postman, VS Code, CI/CD

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

CERTIFICATIONS

Udemy — The Complete Web Development Bootcamp

takeUforward — Data Structures & Algorithms, Aptitude, Reasoning

HackerRank — SQL Basics

EDUCATION

Jamia Hamdard, New Delhi, India

B.Tech in Computer Science Engineering
