RELEVANT SUMMARY

Computer Science undergraduate with hands-on experience building full-stack web applications using **React.js**, **Node.js**, **Express.js**, **PostgreSQL**. Skilled in REST APIs, JWT authentication, Prisma ORM, and Docker, with a strong foundation in Data Structures & Algorithms, OOP, and DBMS. Seeking Software Engineer or Full Stack Developer roles.

PROJECTS

SQL Editor (SQLStudio) | *React, TypeScript, Fastify, Node.js, SQLite, Prisma, Tailwind CSS* June 2026
[GitHub](#)

- Developed a web-based SQL IDE supporting real-time query execution for 50+ concurrent operations, streamlining database management for developers.
- Engineered a developer-focused frontend utilizing React, TypeScript, and Monaco Editor to deliver intelligent autocomplete, syntax highlighting, and interactive schema exploration.
- Architected a high-performance Node.js and Fastify backend integrating better-sqlite3 and Prisma ORM to securely execute raw SQL queries, manage saved collections, and track comprehensive execution history.

Task Flow | *React.js, Node.js, Express.js, PostgreSQL, Prisma, Tailwind CSS* May 2026
[GitHub](#) | [Live](#)

- Developed a full-stack collaboration platform featuring task CRUD, project management, and real-time workflow tracking.
- Secured the API with **JWT and httpOnly cookies**, persistent sessions, and role-based access control (Admin/Member).
- Built a responsive analytics dashboard to visualize task statistics, overdue items, and project progress.

Content Broadcasting System | *Node.js, Express.js, PostgreSQL, Prisma, Redis, Docker* April 2026
[GitHub](#) | [Live](#)

- Production-ready backend platform for secure content broadcasting, scheduling, and approval workflow management.
- Engineered a scalable backend platform for secure content scheduling, role-based approval workflows, and real-time broadcasting in educational environments, deployed via Docker on Render.
- Architected a dynamic scheduler service for time-based content delivery using cycle-based algorithms and optimized PostgreSQL queries via Prisma ORM.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, SQL, Python

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Vite

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Middleware

Databases & Caching: PostgreSQL, MongoDB, Prisma ORM, Redis

DevOps & Tools: Linux, Docker, Git, GitHub, Postman, VS Code, CI/CD

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

CERTIFICATIONS & VIRTUAL EXPERIENCE

Deloitte Australia Technology Job Simulation (Forage) June 2026

Completed a technology consulting simulation involving telemetry data transformation, Python-based data processing, and software development proposal creation.

Udemy — The Complete Web Development Bootcamp

takeUforward — Data Structures & Algorithms, Aptitude, Reasoning

HackerRank — SQL Basics
